

Approved Fire Ring

Please help us keep Camp Lavigne "Green and Clean". By using an Approved Fire Ring, we can prevent "Scorched Ground and Vegetation". "Leave No Trace" Thank You for your help.

- Fire Box may not be larger than 42" in any direction.
- No holes in the fire box that may allow ash to fall to the ground.
- All ash must be placed in the approved receptacles.
- All partially burnt wood should be placed along the inside edge of the ash receptacle for future use.

The clearance must be a minimum of 12" of unobstructed area. Spindle or angle type supports only. No solid or partially solid supports that block air flow in any manner.

Camp Lavigne reserves the right to have any unapproved fire ring removed.
